TECHNICAL SKILLS

Languages: JavaScript, HTML/CSS

Frameworks: React, Node.js, ExpressJS, Firebase

Developer Tools: Git, VS Code, Visual Studio, Linux

PROJECTS

Blog Website | *NodeJS, Express, MongoDB, JWT, React*

Source Code Live preview

- Designed and built a user interface with React for viewing blog posts and commenting on these posts
- Designed and built a editer interface with React for creating, updating and deleting blog posts and deleting the comments of users
- Built a NodeJS REST API with Express to handle CRUD operations from the user and editor interface
- Connected REST API and frontends with fetch api calls
- Implemented JWT to authorize the editor in the editor interface

Members-only | *NodeJS, Express, PassportJS, EJS, MongoDB*

Source Code Live preview

- Designed and built a user interface with EJS where users can signup, login and view, create and delete messages
- Implemented authentication with PassportJS and authorization with sessions
- Used NodeJS and Express to handle CRUD operations
- Used MongoDB to store users and messages

Instagram-clone | *React, Firebase*

Source Code Live preview

- Designed and built an instagram clone with React components and hooks for viewing and creating posts with a caption
- Implemented Firebase authentication for signup and login of users
- Managed user posts and data with Firebase Firestore and Firebase Storage

Bookshop | *React*

Source Code Live preview

- Designed and built a online bookshop where users can add books to their cart, change the amount of booksk, remove the books from the cart and see the total amount to pay
- Managed cart data with React useState hook

EDUCATION

High School   Arnhem, GLD
Gymnasium   *Sep. 2016 – May 2022*

EXPERIENCE

Server   July 2019 – July 2022
Bar Florian   *Arnhem, GLD*

- Take ownership of problems that arise during a shift, such as incorrect orders or customer complaints to find solutions to ensure customer satisfaction
- Used clear communication with other staff and customers to ensure a smooth operation of the restaurant.
- Provide customers of a enjoyable experience, despite the long hours, difficult customers and stressful situations.
